Personal statement

I am a highly motivated and keen learner with a strong passion for acquiring new skills and trades. I have always been observant and quick to pick up on new concepts, which drives my desire for continuous self-improvement.

As I embark on my journey to further my education, I am excited to be entering a coding bootcamp to deepen my understanding and proficiency in coding languages. I am eager to immerse myself in the world of programming, where I can apply my analytical thinking, problem-solving abilities, and commitment to mastering the skills necessary to succeed in this dynamic field. My goal is to leverage this opportunity to build a solid foundation in coding, enabling me to contribute effectively to projects and pursue a career in technology with confidence and expertise.

Since my academic studies, I've taken the opportunity to work on several personal projects, enhance my technical skills, and developing a clearer vision for my future in coding. Now, with a renewed sense of purpose and direction, I'm excited to continue my education and pursue coding, confident that the experiences I've gained have prepared me for success.

Key Skills

- 80 words per minute typing
- Proficiency in all areas of Microsoft Office, including Access, Excel, Word and PowerPoint
- Excellent communication skills, both written and verbal
- Quick learner
- Able to code using html, css, javascript, react, NextJs and typescript.
- A good problem solver.
- Good time management and able to reach deadlines on time.

Coding Projects

- <https://week6-b9te.vercel.app/>

Built a cookie clicker using react and css, you gain coins every second and can use coins to upgrade.

- <https://lab8-kohl.vercel.app/>

Created a watch list to store your favourite watch brands and also using an authentication to keep your watch list private.

- <https://lab9-ofgz.vercel.app/sign-in>

Made a simple to-do app using NextJs and using clerk to allow the user to login and check their list.

Employment History

Between 2023 until end of 2024, I was in education.

Waiter and Bartender
Rajdoot Tandoori
(November 2022 – May 2023)

- Delivered excellent customer service by greeting guests warmly, taking orders accurately, and ensuring their dining experience was enjoyable.
- Managed multiple tasks during busy shifts, such as taking orders, preparing drinks, and handling payments.
- Demonstrated punctuality and reliability, consistently arriving on time and being prepared for each shift.
- Developed a strong knowledge of the menu, allowing me to assist customers with menu selections and upselling.
- Quickly learned to prepare cocktails and other beverages, showcasing my ability to adapt and learn new skills under pressure.

Education

Tech Educators Software Development Bootcamp
(August 2024 – November 2024)

- Acquired technical skills such as problem-solving, coding, project management and collaborative problem-solving.

University of Manchester – Chemical engineering
(September 2022 – September 2024)

- Completed studies up to final year, gaining skills in analytical thinking, problem-solving, and project management.

Longcroft school and Sixth form

- A-levels: Mathematics (A), Chemistry (A), Biology (B)
- GCSEs including Maths & English

Hobbies & Interests

In my free time, I enjoy spending quality time with friends, often gathering together to play board games. This activity not only brings us closer but also challenges our strategic thinking and creativity. Recently, I've developed a growing interest in reading, discovering the joy and enrichment that books bring into my life. Additionally, I love working on personal projects and continuously learning coding, which allows me to explore new coding languages and improve my problem-solving skills. Combining these hobbies keeps me engaged, intellectually stimulated, and always learning something new.
